To evolve, move up the corporate ladder and to provide thorough and skillful support to senior executives, peers and everyone else.

Willing to relocate: Anywhere

Work Experience

Sr. Backend Developer
ZZ-Technologies - Islamabad
March 2021 to Present

I am currently working as a Senior Backend Developer where I mostly work with Node Django and GoLang. I lead a team of Backend Developers in creating Server-Side Solutions. I help the Front End Developers in data binding and providing Api responses. I run cron-jobs and help in web automation using drivers and selenium.

Backend Developer
Ikonami Soft - Islamabad, PK
September 2020 to March 2021

I worked as a backend engineer for a corporate firm under a time driven environment where I developed large scalable apps and developed Graph QL apis apps using Node Js, and Apollo Server, worked with PM softwares such as JIRA and version control softwares such as GIT.

Full Stack Developer
Coliseum Soft - Islamabad
May 2018 to August 2020

I worked as a Full Stack Developer working with flutter on the frontend and using Node, Mongoose , Mongo DB, Express for the backend side. I converted Adobe XD templates to high Quality responsive UI/ UX app designs. Alongside that I made scalable server side for the app as well.
